

## § 159.37

## 19 CFR Ch. I (4–1–16 Edition)

used shall be those which reflect realistically the percentage for which each type of rate is uniformly applicable under the laws and regulations of the country of exportation on the date of exportation.

(c) *Procedure when multiple certified rates not uniformly applicable.* If the port director has credible information that a type of rate or combination of types of rates which would otherwise be applicable under paragraph (b) of this section were not required or permitted, as the case may be, under the laws and regulations of the country of exportation to be used uniformly during any period in connection with the payment for all merchandise of the class involved, he shall immediately submit a detailed report to the Commissioner of Customs, and shall suspend appraisement and liquidation as to all merchandise of the class involved exported to the United States during the period involved, until instructions are received from the Commissioner of Customs.

(d) *Rate for merchandise different from rate for costs.* If the port director has credible information that a type of rate or combination of types of rates not applicable to payment for the merchandise was required or permitted in payment of costs, charges, or expenses, the currency conversions for the exchange covering payment for the merchandise and for the exchange covering such costs, charges, or expenses shall be calculated separately. In deducting nondutiable costs, charges, or expenses, the foreign exchange shall be at the rate or rates actually used in payment of such costs, charges, or expenses, whether or not certified in accordance with § 159.34 or § 159.35. If the costs, charges or expenses are dutiable, they shall be calculated according to the rules set forth in this subpart. In the event that any type of rate uniformly applicable to payment of such dutiable costs, charges, or expenses for merchandise of the class involved was a type of rate not certified in accordance with § 159.34 or § 159.35, the port director shall immediately submit a detailed report to the Commissioner of Customs, and shall suspend appraisement and liquidation as to all merchandise of the class involved exported to the United

States during the period involved, until instructions are received from the Commissioner.

### § 159.37 Suspension of certification of rates.

Whenever the Federal Reserve Bank of New York advises that its certification of rates for a currency is being suspended pending determination of the question whether it will certify multiple rates for that currency, the following procedures shall apply:

(a) *Notification of suspension.* Customs field officers will be informed when certification of a currency is being suspended. Currency information received from the Federal Reserve Bank, or otherwise available, which might be helpful in calculating estimated duties during the period of suspension will be furnished to the Customs field officers.

(b) *Suspension of liquidation.* In any case where for the purposes of the assessment and collection of duties it is necessary to determine the proper rate or rates for a currency during the period when it has been suspended from certification, appraisement and liquidation shall be suspended until resumption of certification.

(c) *Resumption of certification.* When certification is resumed by the Federal Reserve Bank, the procedures in § 159.36 shall apply.

### § 159.38 Rates for estimated duties.

For purposes of calculating estimated duties, the port director shall use the rate or rates appearing to be applicable under the instructions in this subpart to the merchandise involved. When it is not yet known what certified rate or rates are applicable or no rate has been certified, the port director shall take into account all the information in his possession and shall use the highest rate or combination of rates (*i.e.*, the rate or combination of rates showing the highest amount of United States money), certified or uncertified as the case may be, which could be applicable.
